

Hydrotherapy/Swimming Assistant KEW

- Enjoy swimming?
- Interested in helping others and having fun?
- Want to join a great team?

St Paul's College in KEW is urgently seeking volunteers to assist with regular hydrotherapy programs for students with disabilities.

Students benefit enormously from time in the very warm pool. They require lots of physical assistance and observation to be safe, so although the water is not deep, you need to be confident in water.

You will receive full training and ongoing support from qualified and helpful staff.

Volunteering in this area is not difficult, can be lots of fun, and brings the huge reward of seeing the students' faces as they relax into the water.

The sessions are held Monday, Tuesday and Thursday afternoons and Tuesday morning.

This Volunteering Opportunity is located in the **3101** postcode.
